---

## Summary

A results-driven **Junior Frontend Developer** skilled in **React and Redux**, committed to building high-quality, accessible, and well-tested web applications. My professional background in **business** gives me a unique perspective on delivering solutions that are not only technically sound but also align with organizational objectives.

---

## Technical Skills

- **Core Technologies:** React.js, Redux, HTML5, CSS3, JavaScript (ES6+)
  - **Styling:** Bootstrap, Tailwind CSS, Material UI, Responsive Design, Accessibility (a11y)
  - **Tools & Testing:** RESTful APIs, AI-powered tools, Jest, React Testing Library (RTL), Git, GitHub
- 

## Projects (All available on Portfolio & GitHub)

- **Gouda Restaurant App — *React, Redux, Bootstrap, a11y***  
Built a dynamic responsive restaurant web app (home, menu, contact) using React + Redux to demonstrate scalable state management and mobile-first UI.
  - **Weather App — *React, REST API, Bootstrap, Jest + RTL, a11y***  
Implemented a responsive weather dashboard that consumes a public API to display real-time weather and forecasts with caching and error handling.
  - **To-Do List App — *React, Material UI, Jest + RTL, a11y***  
Created a task manager with dark mode, accessibility features, and local persistence.
-
